VILLAGE OF ORLAND HILLS, ILLINOIS

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Board of Trustees Village of Orland Hills, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of Orland Hills, Illinois, as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Village of Orland Hills, Illinois' basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of Orland Hills, Illinois, as of April 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village of Orland Hills, Illinois and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the Bond Debt Service Fund was reported as a non-major fund in the prior year but is now reported as a major fund. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village of Orland Hills, Illinois' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are

considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Village of Orland Hills, Illinois' internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the Village of Orland Hills, Illinois' ability to continue as a going concern for
 a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of Village contributions, schedules of changes in Village net pension liability and related ratios, schedule of investment returns, schedules of changes in Village total other post-employment benefit liability and budgetary comparison information on pages 4-13 and 62–72 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Orland Hills, Illinois' basic financial statements. The accompanying combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the list of principal officials and statistical sections but does not include the basic financial statements

and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 21, 2022, on our consideration of the Village of Orland Hills, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village of Orland Hills, Illinois' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Village of Orland Hills, Illinois' internal control over financial reporting and compliance.

Hillside, Illinois

October 21, 2022

IN & associates, P.C.

As management of the Village of Orland Hills (the "Village") we offer readers of the Village's financial statements this narrative overview and analysis of the financial activities of the Village for the fiscal year ended April 30, 2022. Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, it should be read in conjunction with the Village's financial statements.

Financial Highlights

- The Village's net position as of April 30, 2022 is \$10.8 million as compared to \$10.1 million in the prior year. Of the total net position, \$19.7 million is invested in capital assets net of related debt, \$7.6 million is restricted and there is a \$16.5 million deficit in unrestricted net position.
- As noted on the government wide statement of activities, total revenues for the Village as a whole for the year ended April 30, 2022 were greater than total expenses by \$0.7 million.
- At the end of the fiscal year, the fund balance of the General Fund as shown on the statement of revenues, expenditures and changes in fund balance was \$3,154,534 after a gain for the year of \$1,551,808.

Overview of the Financial Statements

The discussion and analysis is intended to serve as an introduction to the Village's basic financial statements. The Village's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

Using the Financial Section of this Annual Report

The financial statement's focus is on the Village as a whole and on the major individual funds. Both perspectives allow the readers to address relevant questions, broaden the basis for comparison and enhance the reader's understanding of the statements.

Government-wide Financial Statements

The government-wide financial statements are designed to be corporate like.

The Statement of Net Position combines and consolidates governmental funds current financial resources with capital assets and long term obligations. It uses the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities is focused on both the growth and the new costs of various activities. These activities are supported by the government's general taxes and other resources. This is intended to summarize and simplify the users' analysis of the costs of various governmental services.

The governmental activities reflect the Village's basic services, which include administration, public safety, highways and streets and culture and recreation. Property taxes, shared state taxes and local utility taxes finance the majority of these services.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be included into two categories: governmental funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements provide a detailed view of the Village's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near -term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenue, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Motor Fuel Tax Fund, Capital Bond Fund, Sports Arena Fund and Bond Debt Service Fund all of which are considered to be major funds. Major funds are defined as the General Fund and other funds where the assets and deferred outflows of resources, the liabilities and deferred inflows of resources, revenue or expenditures of that fund are at least ten percent of the corresponding total for all governmental funds, since the Village has no enterprise funds.

Data forming the remaining governmental funds are combined into a single, aggregated column presentation. Individual fund data information for these non-major governmental funds is provided elsewhere in the report.

The basic governmental fund financial statements (including the reconciliation) can be found on pages 16-19 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the Village. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The fiduciary fund financial

statements provide separate information for the Police Pension Fund. The basic fiduciary fund financial statements can be found of pages 20-21 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the information provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 22.

Other Information

In addition to the basic financial statements, this report also includes certain required supplementary information related to the budgetary information and the Village's funding progress of the Illinois Municipal Retirement Fund, Police Pension Fund and other postemployment benefits and the budgetary to actual statements for the General Fund, and Motor Fuel Tax Fund which is the only major special revenue fund. Required supplementary information can be found on pages 62-72. The combining statements dealing with the non-major governmental funds are presented immediately following the required supplementary information.

FINANCIAL ANALYSIS OF THE VILLAGE'S GOVERNMENT-WIDE FINANCIAL STATEMENTS

Statement of Net Position

The following chart reflects the Condensed Statement of Net Position (in millions):

CONDENSED STATEMENT OF NET POSITION

April 30, 2022 and 2021

	<u>2022</u>	<u>2021</u>		
Assets:				
Current assets	\$ 13.1	\$	7.2	
Capital assets, net	20.6		19.9	
Total assets	33.7		27.1	
Total deferred outflows				
of resources	4.6		5.8	
Liabilities:				
Current liabilities	1.4		1.3	
Long-term liabilities	20.3		19.9	
Total liabilities	21.7		21.2	
Total deferred inflows				
of resources	 6.0		1.7	
Net position:				
Invested in capital assets -net	19.7		19.9	
Restricted	7.6		3.7	
Unrestricted	(16.5)		(13.5)	
Total net position	\$ 10.8	\$	10.1	

The 2022 assets are composed of cash and investments valued at \$11.1 million (33% of total assets), \$1.9 million of intergovernmental and taxes receivable (6% of total assets) and capital assets net of accumulated depreciation of \$20.6 million (61% of total assets). The liabilities are composed of accounts payable of \$0.4 million (2% of total liabilities), property tax refunds due to Cook County of \$0.4 million (2% of total liabilities), Police Pension payable of \$0.4 million (2% of total liabilities) \$0.2 million of long term debt due within one year (1% of total liabilities) and \$20.0 million of long term debt due in more than one year (92% of total liabilities). Cash and investment balances are up \$5.9 million from the prior year due mainly to unspent bond proceeds from the Series 2021 issue. Deferred inflows of resources are up \$4.3 million due mainly to changes in assumptions regarding the police pension plan.

Statement of Activities

The following chart reflects the Condensed Statement of Activities (in millions):

CONDENSED STATEMENT OF ACTIVITIES

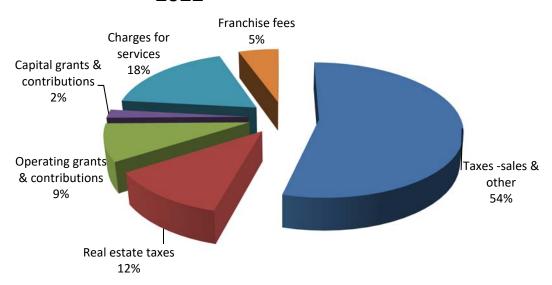

April 30, 2022 and 2021

	2	022	<u>2</u>	<u>021</u>
Revenues:				
Program Revenues:				
Charges for services	\$	1.6	\$	1.0
Operating grants and contributions		0.8		0.4
Capital grants and contributions		0.2		2.2
General Revenues:				
Property taxes		1.0		1.0
State sales tax		2.1		2.0
Other taxes		2.6		2.3
Other		0.6		0.6
Total revenues		8.9		9.5
Expenses:				
General government		1.8		0.9
Public safety		3.6		4.4
Culture and recreation		0.6		0.6
Highway and streets		2.0		1.9
Other		0.2		0.1
Total expenses		8.2		7.9
Change in net position		0.7		1.6
Net position - beginning		10.1		8.5
Net position - ending		10.8		10.1

Total revenues for fiscal 2022 decreased approximately \$0.6 million from the prior year. The most significant change was a result of a \$2 million DCEO capital grant in 2021 for the sports arena that will be constructed. Charges for services are up as a result of permit and inspection fees due to increased development and recreation fees which were down in the prior year due to COVID.

Revenue by Source - 2022

2022

Total expenses for fiscal 2022 increased slightly from 2021. General government expense was up due primarily to an increase in IMRF pension expense. A \$900,000 decrease in police pension expense resulted in a decrease in public safety costs.

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

Governmental Funds

The following chart reflects a condensed comparison of 2022 and 2021 revenues and expenditures:

	<u>2022</u>	<u>2021</u>	Increase (Decrease)		
Revenues					
General Fund	\$ 7,799,447	\$ 6,386,372	\$	1,413,075	
Motor Fuel Tax Fund	605,522	629,372		(23,850)	
Capital Bond Fund	9,053	3,153		5,900	
Sports Arena Fund	962	1,971,618		(1,970,656)	
Bond Debt Service Fund	394,064	446,591		(52,527)	
Nonmajor Funds	146,748	65,837		80,911	
Total Revenues	\$ 8,955,796	\$ 9,502,943	\$	(547,147)	
Expenditures					
General Fund	\$ 6,247,639	\$ 5,238,379	\$	1,009,260	
Motor Fuel Tax Fund	375,309	686,963		(311,654)	
Capital Bond Fund	1,180,958	85,810		1,095,148	
Sports Arena Fund	135,849	104,139		31,710	
Bond Debt Service Fund	374,050	375,950		(1,900)	
Nonmajor Funds	140,892	8,283		132,609	
Total Expenditures	\$ 8,454,697	\$ 6,499,524	\$	1,955,173	
Other Financing Sources (Uses)					
General Fund	\$ -	\$ (218,712)	\$	218,712	
Capital Bond Fund	5,147,273	_		5,147,273	
Motor Fuel Tax Fund	-	250,000		(250,000)	
Nonmajor Funds	_	(31,288)		31,288	
Total Other Financing Sources (Uses)	\$ 5,147,273	\$ -	\$	5,115,985	

Revenues

General Fund revenues were up almost 19% from the prior year primarily as a result of an increase of taxes (up about \$300,000), intergovernmental revenues (up over \$500,000) and fees and charges for services (up almost \$400,000). Sports Arena Fund revenues in 2021 were the result of grant funding.

Expenditures

General Fund expenditures are also up about 19% from the prior period. The largest increase was an approximate \$643,000 increase in police department expenditures which had decreased in the prior year. Personal services accounted for most of the increase with \$278,000 of the increase being increased police pension contributions. Beginning with the 2021 tax levy, the Village is now levying all of their property taxes to provide increased funding to the police pension plan.

Motor Fuel Tax Fund expenditures were down because a large street paving project was done in the prior year.

Capital Project Fund expenditures are up with \$530,000 of the increase resulting from a land purchase for a park development.

The Bond Debt Service Fund was a non-major fund in 2021 but is shown separately for comparison purposes as it is a major fund in 2022.

Budgetary Highlights

The following chart reflects the condensed budgetary comparison schedule for the General Fund:

	Budget		Actual		 Variance
Revenues					
Taxes	\$	1,459,000	\$	1,993,662	\$ 534,662
Intergovernmental		2,958,324		3,996,402	1,038,078
Other		1,365,246		1,809,383	 444,137
Total revenues	5,782,570			7,799,447	2,016,877
Expenditures		5,608,242		6,247,639	639,397
Excess of revenues over					
(under) expenditures		174,328		1,551,808	1,377,480
Other financing sources (uses)					
Other financing sources		-		-	-
Other financing uses					
Total other financing sources (uses)		-		-	-
Change in fund balance	\$	174,328	\$	1,551,808	\$ 1,377,480

The major variances between actual and budget include the following:

- Tax revenues exceeded budget by about 37% primarily due to property tax revenues exceeding
 the budgeted amount by about \$375,500 primarily because property taxes related to the police
 pension fund are not budgeted for nor are the offsetting pension contribution expenditures;
- Intergovernmental revenues exceeded budget by about 35% primarily due to state sales tax revenues and state income taxes being above expectation by \$264,000 and \$333,000, respectively, as well as unbudgeted COVID 19 grant funds of \$478,000.
- Other revenues exceeded budget by 32% with the most significant variances resulting from permit and inspection fees being \$222,000 over budget.
- Expenditures were 11% over budget. Police department personal services were over budget \$974,000 primarily because the Village does not budget for police pension property tax contributions which were \$547,000. General government costs were \$202,000 under budget.

There were no amendments to the original budget ordinance during the year.

CAPITAL ASSETS

Governmental Activities Change in Capital Assets

	Net						
	Balance	Additions/	Balance				
	April 30, 2021	<u>Deletions</u>	April 30, 2022				
Non-depreciable assets - land	\$ 10,133,189	\$ 530,000	\$ 10,663,189				
Construction in progress	450,712	514,656	965,368				
Depreciable capital assets							
Land improvements	653,354	-	653,354				
Buildings & Improvements	4,199,899	-	4,199,899				
Equipment	1,375,978	215,720	1,591,698				
Infrastructure	19,098,753	-	19,098,753				
Accumulated depreciation	(15,973,267)	(573,547)	(16,546,814)				
Total capital assets, net	\$ 19,938,618	\$ 686,829	\$ 20,625,447				

Capital asset additions included increases in construction in progress related to the sports arena and the Lake Lorin stabilization project. Land was purchased for a future park development. Two vehicles were purchased for the police department and a public works vehicle was also purchased. Depreciation expense for the year was \$573,547. More detailed information can be found in Note 4 to the financial statements.

DEBT ADMINISTRATION

At April 30, 2022, the Village had outstanding debt as follows:

Series 2017 Bonds	\$3,300,000
Series 2021 Bonds	4,690,000
Unamortized bond premium	623,191
Accrued interest on bonds	123,559
Net pension liability	11,080,670
OPEB – Health Insurance for Retirees (PSEBA Act)	418,248
Compensated absences	176,533
Total long-term debt	\$ 20,412,201

The Village's debt increased by approximately \$483,000 this year. This was mainly due to:

- The issuance of \$4.7 million of bonds
- A net increase of \$442,000 in unamortized bond premium as a result of the debt issuance reduced by amortization

- Bond principal payments of \$235,000
- A decrease of \$4,354,000 in the Net Pension Liability
- A decrease of \$75,000 in the OPEB Health Insurance for Retirees (PSEBA Act).

Economic Factors

The Village President and Board of Trustees continue to promote economic growth and development in the Village of Orland Hills. As the national and local economies have slowly improved throughout the pandemic, the Village has generated moderate growth from both residential and commercial improvements.

The Village President and the Board of Trustees continue to increase services available to residents while consciously making an effort to minimize their property tax burden. Cultural and recreational activities, general infrastructure improvements, and maintenance and repair of public facilities will continue to be funded by motor fuel taxes, grants and other revenue generating sources.

This year shows additional improvement and the Village continues to embrace varied opportunities to foster revenue growth. The State of Illinois approved Video Gaming as a source of revenue for both the state and municipalities. Orland Hills has supported this state-wide program and continues to see benefits from this effort. The past fiscal year yielded more than \$175,000 in revenue.

The Village's efforts to attract new sales tax producing businesses in town continue to be a high priority. Businesses have found favor with Orland Hills' business relationship methods and practices. The prospects for increased commercial development remain strong. Recent developments and Village meetings indicate that several corporations, business owners and developers are interested in Orland Hills sites and buildings. Efforts by the Village show promise in expansion of the business commercial area over the next few years.

Several years ago an effort by the Village was undertaken to enforce an Intergovernmental Agreement (IGA) between Orland Hills and a neighboring town to collect sales tax on commercial property. The Village was successful in this endeavor and realized a one-time large cash payment to be followed up with tri-annual (three times per year) payments for the next 80+ years.

Over the past twenty-four years, the Village has reduced reliance on property taxes to balance the budget. As we enter the new fiscal year, the Village continues to reduce expenses and minimize overtime labor costs whenever possible.

Contacting the Village's Financial Management

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Village's finances. Questions concerning this report or requests for additional financial information should be directed to the Village Administrator, Village of Orland Hills, 16033 South 94th Ave, Orland Hills, Illinois 60487-4623. E-mails may be directed to contact@orlandhills.org.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Orland Hills, Illinois ("Village"), have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to government, as promulgated by the Government Accounting Standards Board (GASB). The following is a summary of the significant policies:

Reporting Entity

The Village of Orland Hills is a municipal corporation governed by an elected Village president and six-member Village board.

In 2014, the Village adopted the provisions of the Governmental Accounting Standard Board ("GASB") Statement No. 61, "The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34" which modifies certain requirements for inclusion of component units in the financial reporting entity. An organization is considered a component unit of the primary government if 1) the government appoints a voting majority of the organization's board and there is a financial benefit or burden relationship or the government is able to impose its will on the organization or 2) the organization is fiscally dependent on the government and there is a financial benefit or burden relationship or 3) the government determines that it would be misleading to exclude the organization from its financial statements.

Based on the foregoing criteria, the Village does not exercise oversight responsibility over any other entity and thus does not include other entities in the Village's financial statements.

The Village's police employees participate in a police pension employee's retirement system (PPERS). The PPERS functions for the benefit of these employees and is governed by a 5 member board consisting of two members appointed by the Village's president, one elected pension beneficiary, and two elected police employees. The Village and the PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contributions levels.

Although it possesses many characteristics of a legally separate government, PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees and because of the fiduciary nature of such activities. PPERS is reported as a pension trust fund. The financial statements of the Police Pension fund as of and for the fiscal year April 30, 2022, are blended in the Village's basic financial statements as a pension trust fund.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements

The Village's basic financial statements consist of both the government-wide financial statements, including a Statement of Net Position and a Statement of Activities, and the fund financial statements which provide a more detailed level of financial information. The government-wide focus is more on the sustainability of the village as an entity and the change in aggregate financial position resulting from activities of the fiscal period.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities report information on activities of the Village, except for fiduciary funds. The effect of interfund activity has been removed from these statements excluding interfund services provided. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position presents the financial condition of the governmental activities of the Village at year end. The Statement of Net Position includes all assets, deferred outflows of resources, liabilities, and deferred inflows of resources as well as the capital assets, net of accumulated depreciation, and long-term debt associated with the operation of the Village.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue include 1) fines, fees, and charges to customers, citizens, and applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are reported in the supplementary information.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements

During the year, the Village segregates transactions related to certain Village functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Village at this more detailed level. The focus of governmental fund financial statements is on major funds.

A major fund is defined as the Village's General Fund as well as any other fund where either the assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures of that fund are at least ten percent of the corresponding total for all governmental funds, since the Village has no enterprise funds. The Village's management may select as a major fund any other fund not meeting the above criteria if they believe the fund is of particular importance to the user of the financial statements. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

The fiduciary fund is reported at the fund financial statement level as a separate fund type and is not included in the government-wide financial statements.

Since capital assets and long-term debt are concerned only with the measurement of financial position as of the date of the end of the reporting period, neither of these are reported in fund financial statements. Both items are included in the government-wide financial statements.

Fund Accounting

The Village uses funds to report on its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Funds are classified as: governmental or fiduciary funds.

Governmental funds are used to account for all or most of the Village's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisitions or construction of general capital assets (capital project funds), and the servicing of general long-term debt (debt service funds). The General Fund is used to account for all activities of the Village not accounted for in some other fund.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. Investment trust funds are used to report fiduciary activities from the external portion of investment pools and individual investment accounts that are held in trust. When assets are held under the terms of a formal trust agreement but are not required to be reported in pension or investment trust funds, a private purpose trust fund is used. Custodial funds are used to report fiduciary activities that are not required to be reported in pension trust funds, investment trust funds or private purpose trust funds. The pension trust fund accounts for the Police Pension fund, which accumulates resources for pension benefit payments to retired police personnel.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are intended to finance. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The government-wide financial statements also include activity related to the purchase, depreciation and year end balances of capital assets as well as year end balances and activity related to long-term debt.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considered revenues to be available if they are collected within 60 days of the end of the year.

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due or when amounts have been accumulated in the debt service fund for payment to be made early in the following year.

Property taxes, sales tax, franchise tax, motor fuel tax, utility tax, police citations, hotel tax, income tax and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Village reports the following major governmental funds:

<u>General Fund</u> is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Motor Fuel Tax Fund</u> is used to account for the motor fuel tax revenues received, including interest income, for the purpose of street maintenance.

<u>Capital Bond Fund</u> is a capital projects fund used to account for the proceeds of General Obligation Bonds restricted for the purchase or construction of capital improvements.

<u>Sports Arena Fund</u> is a capital projects fund created in fiscal 2021 used to account for grant and other revenues to be used to construct a sports arena.

<u>Bond Debt Service Fund</u> is a debt service fund used to account for the Village's accumulation of resources for, and the payment of, general long-term debt, principal, interest, and related costs. It was classified as non—major in 2021.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to the major funds mentioned above, the Village uses the following fund types:

<u>Special Revenue Funds</u> are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes.

Fiduciary Funds

<u>Trust Funds</u> are used to account for assets held by the government in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or funds. These include pension trust funds. Pension trust funds are accounted for in essentially the same manner as propriety funds since capital maintenance is critical.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Liabilities and Net Position

Cash and Investments

The Village's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the Village to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the Illinois Funds.

Investments are stated at fair value. The investment with the State Treasurer's Illinois Funds is at fair value, which is the same value as the pooled shares. State statute requires the State Treasurer's Illinois Funds to comply with the Illinois Public Funds Investment Act (30 ILCS 235).

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost above a set dollar threshold based on the asset type (see chart below). All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Capital Asset Category	Ci	apitalization <u>Threshold</u>	Estimated <u>Useful Life</u>
Land	\$	25,000	n/a
Land improvements		20,000	n/a
Site improvements		20,000	3 - 50 years
Building		50,000	10 - 50 years
Building improvements		25,000	10 - 20 years
Vehicles, machinery, equipment		5,000	3 - 50 years
Software		25,000	2 - 7 years
Infrastructure - street network		50,000	10 - 75 years
Infrastructure - water network		75,000	10 - 75 years
Infrastructure - sanitary sewer		75,000	10 - 75 years
Infrastructure - storm sewer		50,000	10 - 75 years

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of loans) or "advances to/from other funds" (I.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfund Transfers

These represent flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses/sources. In proprietary funds, transfers are reported after non-operating revenues and expenses. In the government-wide financial statements, interfund amounts are eliminated except for residual amounts between governmental and business-type activities, which are labeled internal balances or transfers.

Compensated Absences

It is the Village's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. No liability is reported for unpaid accumulated sick leave as it is not paid to employees upon termination of employment. The government-wide financial statements record unused vacation leave as expenses and liabilities when earned by employees.

Long-Term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as expenditures.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources refers to a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditures) until then. The item that qualifies for reporting in this category for the Village relates to their pension and OPEB plans and is reported in the government-wide statement of net position. The Village reports deferred inflows of resources on the government-wide and fund financial statements. Deferred inflows of resources are recorded when assets are acquired that apply to a future reporting period. Property taxes which have been deemed to be measurable but not available or have been levied for use in the subsequent period represent deferred inflows of resources. Amounts related to the pension and OPEB plans also are reported in the government-wide statement of net position as a deferred inflows. In addition, deferred inflows of resources arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period in governmental funds.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reconciliation of Government-Wide and Fund Statements

Differences occur from the manner in which the governmental fund and the government-wide financial statements are prepared because of the inclusion of capital asset and long-term debt activity. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the Village-wide statements and the statements for governmental funds.

Property Tax Revenue Recognition

Property taxes attach retroactively as an enforceable lien on January 1 of the levy year. They are levied in December by passage of a Tax Levy Ordinance. Tax bills are prepared by the County and issued on or about March 1 and August 1 the following year. They are payable in two installments on or about April 1 and thirty days after release of the second billing which is generally between August and November of the current year. The County collects such taxes and remits them periodically. Property tax revenues are recognized in the fund financial statements when they become both measurable and available in the year for which they are intended to finance.

Fund Equity

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, established criteria for classifying governmental fund balances into specifically defined classifications. In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources.

Nonspendable fund balance – includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

Restricted fund balance – includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: 1) externally imposed by creditors such as through debt covenants), grantors, contributors or laws or regulation of other governments: or 2) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Village's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The Village's highest level of decision-making authority rests with the Village Board. The Village has not committed fund balances at April 30, 2022.

Notes to financial statements April 30, 2022

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assigned fund balance – includes amounts that are constrained by the Village's intent to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by the following: 1) the Village Board; 2) a body or official to which the Village has delegated the authority to assign amounts to be used for a specific purpose. The Village has not delegated authority to any other body or official to assign amounts for a specific purpose within the General Fund. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purposes and approved budget/appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned.

Unassigned fund balance – includes the residual fund balance that has not been restricted, committed or assigned within the General Fund and unassigned deficit fund balances of other governmental funds.

Unless specifically identified, expenditures act to reduce restricted balances first, and then committed balances, next are assigned balances, and finally unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

The Village has no fund balance reserve policy for governmental funds.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Eliminations and Reclassifications

In the process of aggregating information for the government-wide statements, some amounts reported as interfund activity and/or interfund balances in the fund financial statements are eliminated or reclassified.

Notes to financial statements April 30, 2022

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except for the Bond Debt Service Fund. Budget amounts are as originally adopted by the Board. All annual appropriations lapse at fiscal year-end.

EXPENDITURES OVER BUDGET

For the year ended April 30, 2022, expenditures/expenses exceeded budget as follows:

				Over
	<u>Budget</u>	<u>Actual</u>	<u> </u>	<u>Budget</u>
General Fund	\$ 5,608,242	\$ 6,247,639	\$	639,397
Capital Bond Fund	1,075,000	1,180,958		105,958

The General Fund variance resulted from Police Pension contributions as well as related property tax revenues not being budgeted. The Capital Bond Fund variance resulted from unbudgeted bond issuance costs.

DEFICIT FUND BALANCES

As of April 30, 2022, the following fund had a deficit fund balance:

Motor Fuel Tax Fund \$ 12,310

The Village plans to recover these deficits through future revenues or transfers of surplus cash when such cash is available.

NOTE 3 DEPOSITS AND INVESTMENTS

Cash

The carrying amount of cash, excluding the Pension Trust Fund, was \$2,235,392 at April 30, 2022, while the bank balances were \$2,284,734. All account balances at banks were insured by the Federal Deposit Insurance Corporation (FDIC) for \$250,000 or collateralized with securities of the U.S. government or with letters of credit issued by the Federal Home Loan Bank held in the Village's name by financial institutions acting as the Village agent.

Notes to financial statements April 30, 2022

NOTE 3 DEPOSITS AND INVESTMENTS (Continued)

The investments that the Village may purchase are limited by Illinois law to the following: (1) securities which are fully guaranteed by the U.S. government as to principal and interest; (2) certain U.S. government agency securities; (3) certificates of deposit or time deposits of banks and savings and loan associations which are insured by a federal corporation; (4) short-term discounts obligations of the Federal National Mortgage Association; (5) certain short-term obligations of corporations (commercial paper) rated in the highest classifications by at least two of the major rating services; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds; and (8) money market mutual funds and certain other instruments.

The following schedule reports the fair values and maturities for the Village's governmental fund investments at April 30, 2022.

		Investment
		Maturities
	Fair	Less Than
Investment Type	<u>Value</u>	One Year
State Treasurer Illinois Funds	\$ 8,834,426	\$ 8,834,426
Bond Mutual Fund	3,967	3,967
Total	\$ 8,838,393	\$ 8,838,393

Interest Rate Risk

The Village's formal investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Unless tied to a specific future cash outflow, no investments may have a maturity longer than two years.

Credit Risk

The Village's investment policy is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital and, in general, avoid speculative investments. The Village's investment policy limits investment in short-term obligations of corporations organized in the United States with assets exceeding \$500,000,000 if (i) such obligations are rated at the time of purchase at one of the three highest classifications established by at least two standard rating services and which mature not later than 180 days from the date of purchase; (ii) such purchases do not exceed 10% of the corporation's outstanding obligations and; (iii) no more than one-third of the public agency's funds may be invested in short-term obligations of corporations.

Notes to financial statements April 30, 2022

NOTE 3 DEPOSITS AND INVESTMENTS (Continued)

Credit ratings for the Village's investments in debt securities as described by Standard & Poor's for the Illinois Funds and Moody's for the Bond Mutual Fund at April 30, 2021 are as follows:

	Credit	Percent of Total
Investment Type	<u>Ratings</u>	<u>Investments</u>
State Treasurer Illinois Funds	AAA	99.96%
Bond Mutual Fund	AAA	0.04%

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Village's investment policy requires that all amounts in excess of any insurance limits be collateralized by securities eligible for Village investment or any other high-quality, interest-bearing security rated at least AA/Aa by one or more standard rating service to include Standard & Poor's, Moody's or Fitch. The market value of the pledge securities shall equal or exceed the portion of the deposit requiring collateralization. The Village is fully collateralized at April 30, 2022.

Concentration of Credit Risk

The Village places no limit on the amount the Village may invest in any one issuer. The majority of the Village's total investments are invested in State Treasurer Illinois Funds. All of the investments are recorded in the General Fund, Motor Fuel Tax Fund, Capital Bond Fund, Non-Drug Seizure Fund, Tourism Fund, Park Donation Fund, and Wetland Maintenance Fund.

Police Pension Fund's Cash and Investments

The Illinois Police Officers Pension Investment Fund (IPOPIF) is an investment trust fund responsible for the consolidation and fiduciary management of the pension assets of Illinois suburban and downstate police pension funds. IPOPIF was created by Public Act 101-0610, and codified within the Illinois Pension Code, becoming effective January 1, 2020, to streamline investments and eliminate unnecessary and redundant administrative costs, thereby ensuring assets are available to fund pension benefits for the beneficiaries of the participating pension funds. Participation in IPOPIF by Illinois suburban and downstate police pension funds is mandatory. Investments of the Fund are combined in a commingled external investment pool and held by IPOPIF. A schedule of investment expenses is included in IPOPIF's annual report. For additional information on IPOPIF's investments, please refer to their annual report as of June 30, 2021. A copy of that report can be obtained from IFPIF at 456 Fulton Street, Suite 402 Peoria, Illinois 61602 or at www.ipopif.org. The Fund transferred all eligible assets to the Investment Fund on April 11, 2022.

Notes to financial statements April 30, 2022

NOTE 3 DEPOSITS AND INVESTMENTS (Continued)

Deposits

The Fund retains all its available cash with one financial institution. Available cash is determined to be that amount which is required for the current expenditures of the Fund. The excess of available cash is required to be transferred to IPOPIF for purposes of the long-term investment for the Fund. At year-end, the carrying amount of the Fund's cash on hand totaled \$275,980 and the bank balances totaled \$275,980.

Custodial Credit Risk

In the case of deposits, this is the risk that in the event of a bank failure, the Fund's deposits may not be returned to it. The Fund's investment policy states that all deposits in excess of FDIC insurable limits be secured by collateral in order to protect deposits from default. At year-end, the entire carrying amount of the bank balance of deposits is covered by federal depository insurance or pledged securities.

Investments

At year-end the Fund has \$2,309,821 invested in IPOPIF, which is measured at the Net Asset Value (NAV) per share as determined by the pool. The pooled investments consist of the investments as noted in the target allocation table available at www.ipopif.org.

Investment Policy

IPOPIF's current investment policy was adopted by the Board of Trustees on December 17, 2021. IPOPIF is authorized to invest in all investments allowed by Illinois Compiled Statutes (ILCS). The IPOPIF shall not be subject to any of the limitations applicable to investments of pension fund assets currently held by the transferor pension funds under Sections 1-113.1 through 1-113.12 or Article 3 of the Illinois Pension Code.

Rate of Return

For the year ended April 30, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was not available. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Total Cash and Investments

Cash and Investments	
Cash - Village	\$ 2,235,392
Investments - Village	8,838,393

Notes to financial statements April 30, 2022

NOTE 4 CAPITAL ASSETS

The summary of changes in the capital assets of the Village's governmental activities for the year ended April 30, 2022 is as follows:

	Balance at May 1, 2021	Additions		Balance at April 30, 2022
Govermental activities:				
Capital assets not being depreciated:				
Land	\$ 10,133,189	\$ 530,000	\$ -	\$ 10,663,189
Construction in progress	450,712	514,656		965,368
Total capital assets not				
being depreciated	10,583,901	1,044,656		11,628,557
Capital assets being depreciated:				
Land improvements	653,354	-	-	653,354
Buildings and improvements	4,199,899	-	-	4,199,899
Machinery and equipment	1,375,978	215,720	-	1,591,698
Infrastructure	19,098,753	-	-	19,098,753
Total capital assets				
being depreciated	25,327,984	215,720		25,543,704
Less accumulated depreciation for:				
Land improvements	(448,591)	(25,880)	-	(474,471)
Buildings and improvements	(1,928,470)	(83,532)	-	(2,012,002)
Machinery and equipment	(1,124,883)	(84,040)	-	(1,208,923)
Infrastructure	(12,471,323)	(380,095)	<u> </u>	(12,851,418)
Total accumulated depreciation	(15,973,267)	(573,547)		(16,546,814)
		(
Total capital assets being depreciated, net	9,354,717	(357,827)		8,996,890
Capital assets, net	\$ 19,938,618	\$ 686,829	\$ -	\$ 20,625,447

Depreciation expense of \$573,547 was charged to the governmental activities functional expense categories as follows:

	<u>Depreciation</u>		
General government	\$	64,749	
Public safety		40,158	
Culture and recreation		51,557	
Highway and streets		417,083	
	\$	573,547	

Notes to financial statements April 30, 2022

NOTE 5 INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivables and payables as of April 30, 2022 are summarized below:

		ue from	Due to			
		Other		Other		
		<u>Funds</u>	<u> </u>	<u>Funds</u>		
Major governmental funds:						
General	\$	-	\$	11,084		
Motor fuel tax		18		-		
Nonmajor governmental funds:		11,066				
	\$	11,084	\$	11,084		
		_	•			
	A	Advance	Α	dvance		
	t	to Other		From Other		
		<u>Funds</u>]	<u>Funds</u>		
Major governmental funds:						
General	\$	319,347	\$	-		
Motor fuel tax				319,347		
	\$	319,347	\$	319,347		

The interfunds represent loans of cash from funds with surplus in order to meet operating needs and payments made by the general fund for motor fuel tax fund expenditures. The loans will be repaid among the various funds when there is sufficient cash available for payment. In addition, the General Fund has a \$372,110 liability to the Police Pension Fund that is related to prior year property tax levies that were collected by the Village but not yet paid. This amount is presented on the financial statements as a separately identified balance.

Notes to financial statements April 30, 2022

NOTE 6 RECEIVABLES

The following is a summary of other taxes, amounts due from governments and other receivables by fund type at April 30, 2022. Any uncollectible amount is not believed to be material.

activities	\$19,806,041	\$5,166,502	\$4,683,901	\$20,288,642	\$	245,000

Series 2021 Bonds

On September 30, 2021 the Village issued \$4,690,000 General Obligation Bonds (Alternative Revenue Source) Series 2021 at a premium of \$457,273 to pay for certain capital improvements in the Village and the cost of issuance. The bonds bear interest at a rate of 3.0% payable semi-annually and have a final maturity of 12/1/2039.

Series 2017 Bonds

On December 14, 2017 the Village issued \$3,885,000 General Obligation Bonds (Alternative Revenue Source), Series 2017 at a premium of \$226,250 to be used to settle judgements and for the acquisition and construction of major capital projects. The bonds bear interest at rates ranging from 3.0% to 4.0% payable semi-annually and have a final maturity of 12/1/2032.

All general obligation debt is backed by the full faith and credit of the Village. Bonds will be retired by future property tax levies or tax increments accumulated by the debt service fund.

Notes to financial statements April 30, 2022

NOTE 7 LONG-TERM DEBT (Continued)

Bonds outstanding will be retired as follows:

Payments Due						
Fiscal	Principal		Inte	res	it	
Year	December 1		June 1	De	ecember 1	Total
2023	\$ 245,000	\$	160,191	\$	136,350	\$ 541,541
2024	335,000		131,450		131,450	597,900

2033-2037	2,520,000		244,725		244,725	3,009,450
2038-2042	1,695,000		51,300		51,300	 1,797,600
Total	7,990,000		1,390,216		1,366,375	10,746,591

Capital Leases

2019 Interceptor

In 2019, the Village entered into a capital lease agreement for the lease of a 2019 Interceptor. Total annual payments for the vehicle are \$9,158 with the first payment due on December 10, 2018. The payments are for a three-year period, after which the Village has the right to purchase the cars for \$1. As of April 30, 2022, the amount of capital assets acquired through this lease was \$24,895. Accumulated depreciation totaled \$12,448 leaving a book value of \$12,447. The lease was paid off as of April 30, 2022.

Conduit Debt Obligations

The Village has issued Multi-Family Housing Mortgage Revenue Bonds to provide financial assistance to a private-sector entity for the acquisition and construction of facilities deemed to be in the public interest. The bonds are secured by irrevocable transferable letter of credit originally issued by LaSalle National Bank. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity serviced by the bond issuance. Neither the Village, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

Notes to financial statements April 30, 2022

NOTE 7 LONG-TERM DEBT (Continued)

Legal Debt Margin

The Village is subjected to a legal debt margin of 8.625% of equalized assessed value of property in the Village. As of April 30, 2022, the equalized assessed valuation of the Village is \$160,846,398 and the legal debt margin is \$13,873,002. The Village is in compliance with this requirement.

NOTE 8 RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. The Village also purchased its employee health and accident insurance from commercial carriers. There have been no significant changes in the dollar value or type of insurance coverage or any claims exceeding coverage for the last three fiscal years.

NOTE 9 TAX ABATEMENTS

The Village entered into an economic incentive agreement with a major retailer in 2010 providing for the rebate of a portion of sales tax to the retailer. During fiscal 2022, \$72,919 of incentive payments were paid by the Village. As of April 30, 2022, \$10,673 is owed and reflected in accounts payable. The original agreement called for rebating 25% of the new incremental sales tax generated above a base level through 2013 and 65% thereafter until the twenty fifth year of the agreement or until the rebate limit has been reached.

In addition, the Village entered into an economic incentive agreement with an automobile retailer in 2016 providing for the rebate of a portion of sales tax to the retailer. The agreement provides for the retailer to receive 50% of the sales tax revenue that they generate after the first \$50,000 per year which is retained by the Village up to an aggregate amount of \$1.5 million. In 2022, the Village paid \$167,664 to the retailer under the agreement.

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS

Plan Descriptions:

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system; the Sheriff's Law Enforcement Personnel (SLEP), an agent multiple-employer public employee retirement system affiliated with IMRF; and, the Police Pension Plan which is a single-employer pension plan. The benefits, benefit levels, employee contributions, and employer contributions for the Police Pension Plan are governed by Illinois State Statutes and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund which is prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. A stand-alone financial report is not issued for the plan. IMRF and SLEP benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF and SLEP issue a publicly available report that includes financial statements and supplementary information for the plan

Notes to financial statements April 30, 2022

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

as a whole, but not for individual employers. The report can be obtained online at www.imrf.org.

Below is aggregate information related to all of the pension plans in total reported by the Village as of and for the year ended April 30, 2022:

Total Pension Liability	\$	20,130,690

Village's Net Pension Liability-Net		10,966,965
Net Pension Liability Net Pension Asset	\$	11,080,670 (113,705)
Village's Net Pension Liability-Net	Ş	10,966,965
Deferred Inflows of Resources Deferred Outflows of Resources Pension Expense	\$	5,256,321 4,544,149 1,500,582

Illinois Municipal Retirement Fund

General Information about the Pension Plan

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

As set by statute, the Village's Regular plan members are required to contribute 4.5% of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2021 was 24.58%. The employer actual contribution for the calendar year 2021 was 24.58%. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Notes to financial statements April 30, 2022

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

At December 31, 2021, the following employees were covered by the IMRF benefit terms:

IMRF

Retirees and Beneficiaries	20
Inactive, Non-retired Members	13
Active Members	18
Total	51

Net Pension Liability

The Village's net pension liability for IMRF was measured as of December 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The total pension liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method: Entry Age Normal

Price Inflation: 2.25%

Salary Increases: 2.85% to 13.75%

Investment Rate of Return: 7.25%

Retirement Age: Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the 2020 valuation pursuant

to an experience study of the period 2017-2019.

Mortality: For non-disabled retirees, the Pub-2010, Amount-Weighted,

below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality

improvements projected using scale MP-2020.

There were no benefit changes during the year.

Long Term Expected Rate of Return: The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by

Notes to financial statements April 30, 2022

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long Term
		Expected Rate
Asset Class	Target Allocation	of Return
Domestic Equity	39%	1.90%
International Equity	15%	3.15%
Fixed Income	25%	-0.60%
Real Estate	10%	3.30%
Alternative Investments	10%	1.70-5.50%
Cash Equivalents	1%	-0.90%
	100%	

Single Discount Rate: A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on IMRF's pension plan investments is 7.25%; the municipal bond rate is 1.84%; and the resulting single discount rate is 7.25%.

Notes to financial statements April 30, 2022

Notes to financial statements April 30, 2022

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

Sheriff's Law Enforcement Personnel

General Information about the Pension Plan

The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. The plan is affiliated with IMRF. Participating members who retire at age 50 with twenty years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2 1/2% of their final rate of earnings, for each year of credited service.

As set by statute, the Village's SLEP plan members are required to contribute 7.5% of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2021 was 0%. The employer actual contribution for the calendar year 2021 was 0%. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

At December 31, 2021, the following employees were covered by the SLEP benefit terms:

SLEP	
Retirees and Beneficiaries	1
Inactive, Non-retired Members	-
Active Members	
Total	1

Notes to financial statements April 30, 2022

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

Net Pension Liability

The Village's net pension liability for SLEP was measured as of December 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The total pension liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method: Entry Age Normal

Price Inflation: 2.25%

Salary Increases: 2.85% to 13.75%

Investment Rate of Return: 7.25%

Retirement Age: Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the 2020 valuation pursuant

to an experience study of the period 2017-2019.

Mortality: For non-disabled retirees, the Pub-2010, Amount-Weighted,

below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality

improvements projected using scale MP-2020

There were no benefit changes during the year.

Notes to financial statements April 30, 2022

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

Long Term Expected Rate of Return: The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long Term
	1	Expected Rate
Asset Class	Target Allocation	of Return
Domestic Equity	39%	1.90%
International Equity	15%	3.15%
Fixed Income	25%	-0.60%
Real Estate	10%	3.30%
Alternative Investments	10%	1.70-5.50%
Cash Equivalents	1%	-0.90%
	100%	

Single Discount Rate: A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on SLEP's pension plan investments is 7.25%; the municipal bond rate is 1.84%; and the resulting single discount rate is 7.25%.

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

Police Pension Plan

General Information about the Pension Plan

The Police Pension fund plan provides retirement benefits as well as death and disability benefits. Covered employees hired before January 1, 2011, attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years, and 1% of such salary for each additional year of service over 30 years, to a maximum of 75% of such salary. Covered employees hired on or after January 1, 2011, attaining the age of 55 with at least 10 years' creditable service are entitled to receive an annual retirement benefit of 2.5% of final average salary for each year of service, with a maximum salary cap of \$106,800 as of January 1, 2011. The maximum salary cap increases each year thereafter. The monthly benefit of a police officer hired before January 1, 2011, who retires with 20 or more years of service after January 1, 1977 increases annually, following the first anniversary date of retirement and be paid upon reaching the age at least 55, by 3% of the original pension and 3% compounded annually thereafter. The monthly pension of a police officer hired on or after January 1, 2011, increases annually, following the later of the first anniversary date of retirement or the month following the attainment of age 60 by the lesser of 3% or ½ of the consumer price index. Employees with at least 10 years but less than 20 years of creditable service may retire at or after age 60 and receive a reduced benefit.

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Fund. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan, including administrative costs, as actuarially determined by an enrolled actuary. The employer contribution rate for the fiscal year 2022 was 78.73%. The employer annual required contribution rate for the fiscal year 2022 was 99.80%. By the year 2040, the Village's contributions must accumulate to the point where the past service cost for the Police Pension Fund is 90% funded.

At April 30, 2022, the Pension Plan membership consisted of:

Police Pension	
Retirees and Beneficiaries	9
Inactive, Non-retired Members	1
Active Members	8
Total	18

Notes to financial statements April 30, 2022

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

Net Pension Liability

The Village's net pension liability for the Police Pension was measured as of April 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of May 1, 2021. The actuarial cost method was entry age normal with a level percent of pay.

Actuarial Assumptions: The following actuarial assumptions were used to determine the total pension liability in the April 30, 2022 actuarial valuation:

Actuarial Cost Method: Entry Age Normal Amortization Method: Level dollar

Asset Valuation Method: 5-year smoothed market; no corridor

Inflation: 2.25%

Salary Increases: 2.25% - 14.53%

Investment Rate of Return: 6.75%

Retirement Rates: L&A 2020 Illinois Police Retirement Rates Capped at age 65

Disability Rates: L&A 2020 Illinois Police Disability Rates
Termination Rates: L&A 2020 Illinois Police Termination Rates

Mortality: Active mortality follows the Sex Distinct Raw Rates as developed

in the PubS-2010(A) Study. Mortality improvement uses MP-2019 Improvement Rates applied on a fully generational basis. Retiree

mortality fowls the L&A Assumption Study for Police 2020.

Percent Married: 80%

Assumptions Changes: The assumed rate on High Quality 20 Year Tax-Exempt General Obligation Bonds was changed to 3.21% from 2.27% in the prior year. The expected rate of return on investments assumption was changed to 6.75% from 5.75% in the prior year. The discount rate used in the determination of the Total Pension Liability was changed to 4.27% from 2.66% in the prior year.

NOTE 10 EMPLOYEE RETIREMENT SYSTEMS-DEFINED BENEFIT PLANS (Continued)

Long Term Expected Rate of Return: The long term expected rate of return on the Plan's investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long Term
		Expected
		Rate of
Asset Class	Target Allocation	Return
US Large Cap	23%	4.15%
US Small	5%	4.54%
International Developed	18%	4.64%
International Developed-	5%	-0.25%
Emerging Markets	7%	5.31%
Private Equity (Direct)	7%	7.15%
Bank Loans	3%	2.48%
High Yield Corp Credit	3%	2.48%
Emerging Market Debt	3%	2.82%
Private Credit	5%	4.37%
US TIPS	3%	-0.12%
Real Estate/Infrastructure	8%	4.00%
Cash	1%	-0.27%
Short-Term Govt/Credit	3%	0.73%
US Treasury	3%	-0.60%
Core Plus Fixed Income	3%	0.73%
	100%	

Single Discount Rate: The Single Discount Rate reflects:

- 1. A long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary position is projected to be sufficient to pay benefits), and
- 2. A tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary position is insufficient to pay benefits).

For the purposes of this valuation, the expected rate of return on pension plan investments is 6.75%; the municipal bond rate is 3.21%; and the resulting single discount rate is 4.27%.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position can be found in the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position located in the financial section of this report.

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended April 30, 2022, the Village recognized pension expense of \$1,085,364 related to the police pension plan. At April 30, 2022, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	rred Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual experience Changes of assumptions	\$ 179,487 4,038,037	\$	498,669 3,112,390	
Net difference between projected and actual earnings on pension plan investments Total Deferred Amounts to be recognized in pension expense in future periods	\$ 242,719 4,460,243	\$	3,611,059	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to police pensions will be recognized in pension expense in future periods as follows:

		Total
Year Ende	ed	Annual
April 30)	Amortization
2	2023	368,696
2	2024	361,330
2	2025	232,828
2	2026	(118,729)
2	2027	5,059
Therea	fter	-

Notes to financial statements April 30, 2022

NOTE 11 POSTEMPLOYMENT HEALTHCARE BENEFITS

Plan Description

The Village provides the continuation of health care benefits and life insurance to employees who retire from the Village. Employees who terminate after reaching retirement eligibility in the plan may elect to continue their health care coverage by paying the monthly premium rate. Because the actuarial cost of health benefits for retirees exceed the average amount paid by retirees, the additional cost is paid by the Village. In addition, the Village pays 100% of the cost of coverage for officers disabled in the line of duty. The postemployment benefits (OPEB) liability is accounted for under GASB 75. A stand-alone financial report is not issued for the plan.

Participant Data

	Other						
	<u>Police</u> <u>Departments</u>						
Active participants	8	6	14				
Retired/Disabled participants	5	0	5				
	13	6	19				

Funding Policy

Funding is provided by the Village on a pay-as-you-go basis and does not have a formal funding policy.

Total OPEB Liability

The Village's total OPEB liability was measured as of April 30, 2022 and was determined by an actuarial valuation as of April 30, 2021. Census data and financial information was provided for the actuarial valuation performed as of April 30, 2021 and updated to the measurement date.

Actuarial Assumptions: The total OPEB liability was determined using the following actuarial assumptions:

Actuarial Cost Method: Entry Age Normal

Salary Increases: 3.50% Discount Rate: 3.42%

Health Care Cost Trend Rates: 7.25% for 2021 decreasing 0.25% per year

to an ultimate rate of 4.50% for 2029 and after

Mortality rates were based on the RP2014 Blue Collar base rates projected to 2021 using scale MP2020 for Police. For all others the RP2014 base rates were projected to 2021 using scale MP2020 was used. No additional provision (besides those already embedded) were included for mortality improvements beyond 2021.

50% of employees currently enrolled in medical plans were assumed to participate in the retiree plan and 50% of employees were assumed to have participating spouses.

Notes to financial statements April 30, 2022

NOTE 11 POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

Discount Rate: The discount rate used to measure the total OPEB liability as of April 30, 2022 was 3.42%, which was a change from the discount rate of 2.12% that was used as of May 1, 2021. Because plan benefits are financed on a pay-as-you-go basis, the single discount rate is based on a tax-exempt municipal bond rate index of 20 year general obligation bonds with an average AA credit rating as of the measurement date.

Changes in Total OPEB Liability

	Total			
	OPEB Liabilit			
Dala 1 A 1 20 2024		402 422		
Balance at April 30, 2021	\$	493,132

Notes to financial statements April 30, 2022

NOTE 11 POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB

For the year ended April 30, 2022, the Village recognized OPEB expense of \$47,323. At April 30, 2022, the Village reported the following deferred outflows of resources and deferred inflows related to OPEB:

	ed Outflows ources	 Deferred Inflows of Resources			
Differences between expected and actual experience Changes of assumptions	\$ - 72,870	\$ 70,191			
Total Deferred Amounts to be recognized in OPEB expense in future periods	\$ 72,870	\$ 70,191			

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended	Annual
April 30	Amortization
2023	\$ (3,380)
2024	(3,380)
2025	(4,083)
2026	(8,923)
2027	(8,087)
Thereafter	(3,281)

NOTE 12 PRONOUNCEMENTS ISSUED BUT NOT YET ADOPTED

The following is a description of the GASB authoritative pronouncements, which have been issued but have not yet been adopted by the Village of Orland Hills.

GASB Statement No. 87 – *Leases* is effective for the Village beginning with its fiscal year April 30, 2023. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

GASB Statement No. 91 – *Conduit Debt Obligations* is effective for the Village beginning with its year ending April 30, 2023. The Statement clarifies the existing definition of a conduit debt obligation, establishes that a conduit debt obligation is not a liability of the issuer, and establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations. The Statement also requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment,

Notes to financial statements April 30, 2022

NOTE 12 PRONOUNCEMENTS ISSUED BUT NOT YET ADOPTED (Continued)

including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognized liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

GASB Statement No. 92 – *Omnibus 2020* is effective for the Village beginning with its year ended April 30, 2023. The Statement addresses practice issues that have been identified during implementation and application of certain GASB Statements including: 1) the effective date of Statement 87 and Implementation Guide 2019-3 for interim financial reports; 2) reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit OPEB plan; 3) the applicability of Statement 73 and Statement 74 to reporting assets accumulated for postemployment benefits; 4) the applicability of certain requirements of Statement 84 to postemployment benefit arrangements; 5) measurement of liabilities related to asset retirement obligations in a government acquisition; 6) reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers; 7) reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature and 8) terminology used to refer to derivative instruments.

GASB Statement No. 93 – *Replacement of Interbank Offered Rates* is effective for the Village beginning with its year ending April 30, 2023. This Statement will reduce the cost of the accounting and financial reporting ramifications of replacing interbank offered rates (IBOR) with other reference rates. This Statement also requires that agreements that effectively maintain an existing hedging arrangement continue to be accounted for in the same manner as before the replacement of a reference rate.

GASB Statement No. 94 – *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* is effective for the Village beginning with its year ending April 30, 2024. This Statement provides the following financial and accounting requirements for public-private and public-public partnerships (PPPs): a transferor to recognize a receivable for installment payments and a deferred inflow of resources to account for a PPP; a government to account for PPP and non-PPP components of a PPP as separate accounts; an amendment to a PPP to be considered a PPP modification, unless the operator's right to use the underlying PPP asset decreases, in which case it should be considered a partial or full PPP termination. This Statement also provides financial and reporting guidelines for availability payment arrangements (APAs). It requires that a government engaged in an APA with multiple components to recognize each component as a separate arrangement.

GASB Statement No. 95 – Postponement of the Effective Dates of Certain Authoritative Guidance provides temporary relief to governments and other stakeholders in light of the Covid-19 pandemic. This Statement postpones the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

GASB Statement No. 96 – Subscription-Based Information Technology Arrangements is effective for the Village beginning with its year ending April 30, 2024. This Statement requires the disclosure of descriptive information about subscription-based information technology arrangements (SBITAs) other than short-term SBITAs, such as the amount of the subscription asset, accumulated amortization, other payments

Notes to financial statements April 30, 2022

NOTE 12 PRONOUNCEMENTS ISSUED BUT NOT YET ADOPTED (Continued)

not included in the measurement of a subscription liability, principal and interest requirements for the subscription liability, and other essential information.

GASB Statement No. 97 - Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32 is effective for the Village beginning with its year ending April 30, 2023. This Statement requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities.

GASB Statement No. 99 – *Omnibus 2022* addresses several topics including:

- The classification and reporting of derivative instruments within the scope of Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument. (Effective for the fiscal year ended April 30, 2025).
- Clarification of provisions in Statement No. 87, Leases, related to determination of lease term, short-term lease classification, recognition and measurement of a lease liability and lease asset, and identification of lease incentives. (Effective for the fiscal year ended April 30, 2024).
- Clarification of provisions in Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, related to determination of partnership term and recognition and measurement of installment payments and the transfer of underlying assets. (Effective for the fiscal year ended April 30, 2024).
- Clarification of provisions in Statement No. 96, Subscription-Based Information Technology Arrangements, related to subscription-based information technology arrangement (SBITA) term, short-term SBITA classifications, and recognition and measurement of a subscription liability. (Effective for the fiscal year ended April 30, 2024).

GASB Statement No. 100, Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62, is effective for the Village for the fiscal year ended April 30, 2025. The Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

GASB Statement No. 101, Compensated Absences, is effective for the Village for the fiscal year ended April 30, 2025. The Statement is to update the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

Notes to financial statements April 30, 2022

NOTE 12 PRONOUNCEMENTS ISSUED BUT NOT YET ADOPTED (Continued)

Management has not yet completed its evaluation of the impact, if any, the provisions of these GASB statements might have on its financial statements.

NOTE 13 SUBSEQUENT EVENT

On September 21, 2022 the Village sold \$3,810,000 par value of General Obligation Bonds (Alternative Revenue Source) Series 2022 at a premium of \$207,995. The proceeds, after issuance costs of \$99,155, will be used for capital projects.

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the

beginning of the fiscal year in which contributions are reported

Actuarial Cost Method: Aggregate entry age normal Amortization Method: Level percentage of payroll, closed

Remaining Amortization Period: 23-year closed period until period. Asset Valuation Method: 5-year smoothed market; 20% corridor

Wage Growth: 3.25% Inflation: 2.50%

Salary Increases: 3.35% to 14.25%, including inflation

Investment Rate of Return: 7.25%

Retirement Age: Experience based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016

Mortality: For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the

RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational

projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-

disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the

RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Other Information: There were no benefit changes during the year

VILLAGE OF ORLAND HILLS, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION APRIL 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BUDGETARY DATA

A budget to actual comparison is presented for the General Fund and Major Special Revenue funds. The budget is prepared on the modified accrual basis of accounting, which is the same basis used in reporting the governmental funds financial statements except that the property tax levy related to the police pension contribution and the related contribution expenditure are not budgeted for.

All departments of the Village submit requests for appropriation so that an appropriation ordinance may be prepared. The appropriation ordinance is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year.

The proposed appropriation ordinance is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations. All appropriations are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

The appropriation ordinance may be amended by the governing body.

Expenditures may not legally exceed appropriation allocations at the fund level.

The Village also adopts an operating budget, which is used as a management tool.

NOTE 2 - EXPENDITURES OVER BUDGET

The following funds have an excess of actual expenditures over budget for the year ended April 30, 2022:

Fund Amount
General Fund \$639,397
Capital Projects Fund 105,958
